

CURRICULUM VITAE: MEHMET FERDINER

Coming to Building Knowledge as a graduate of the Architectural Construction Engineering Technology program with Conestoga College. Mehmet Ferdiner has developed into a vital team member. Starting as a plans examiner and energy modeler, he gained knowledge in the technical government established home programs. While at the same time assisting with the day to day operations. Mehmet went on to assist the Builder Services division, and gained valuable onsite experience, performing testing and verification for high performance buildings. Mehmet now manages a number of high profile projects including the Net Zero and Special Projects division.
